Information & Application Of Use

NON-CLIMB HORSE FENCE

- Terrific for horses
- Strong 2" x 4" mesh design and varying heights prevent horses from stepping through, walking down or getting over the fence
- Non-climb is a woven fence, which allows it to flex on impact preventing injury to horse or fence
- Fence is woven and not welded, so helps resist being broken or eaten
- Has a 2" x 4" mesh design that prevents your goats from getting their heads or hooves stuck in the fence

POULTRY FENCE

- This uniform hexagonal mesh is reinforced with supplemental horizontal wires so that fencing, pens, and barriers stay straight and upright.
- Galvanized before weaving to last longer and resist rust and corrosion.
- Easier to handle because reverse twist weave unrolls flat.
- 20 Gauge steel wire
- Garden and pet enclosures

UTILITY FENCE

- 16 gauge welded steel / galvanized
- Compost confinements
- Ideal for garden enclosures
- Split rail fence backing
- Pens for Small Pets
- Available in 24", 36", 48", and 60" heights

HIGH TENSILE FIELD FENCE

- Keystone's exclusive Red Brand Monarch Knot Acts as a hinge that gives under pressure.
- Vertical wires are individually cut and wrapped for maximum strength and flexibility.
- Plus, fence retains its full height for continuing protection and good looks.
- The Class 3 galvanized wire has a heavier zinc coating, so it's long lasting and durable.
- High tensile woven field fences are lighter weight than traditional fences.

DEER AND WILDLIFE FENCE

- Designed for long term service in forest and wildlife preserves, zoological parks, highway rights of way, and other public and private protected land applications
- Extra high (8' high) galvanized steel wire mesh fence is heavy-duty in both wire gauge and construction
- Class 3 High Tensile 12-1/2 Gauge Galvanized Wire
- Available in 20 Rod (330') Rolls 96" height

WELDED WIRE FENCE

- General purpose fencing
- Offers strength and rigidity for a variety of outdoor projects
- Galvanized wire and solid welded construction gives this fence strength and rigidity
- Available in 2" x 4" mesh, 1" x 2" mesh, or 1" x 1" mesh
- Rolls come in 50' or 100' lengths and come in a variety of heights

HARDWARE CLOTH

- Ideal for garden and animal fencing, signs, or mailboxes
- Ideal for gardens, workshops, and home projects
- 19 gauge wire with heavy zinc coating applied after welding for maximum protection
- Double selvedge wires at top and bottom for extra strength
- Available in two mesh sizes, 2 x 2 and 4 x 4

HIGH TENSILE SURE-LOCK TIGHT LOCK FARM FENCE

High Tensile Sure-Lock Farm Fence is manufactured with 12-1/2 gauge Class 111 galvanized wire. Line wire tensile of 180 to 210,000 psi increases fence strength while providing the user with an economical fencing alternative. High Tensile Tight Lock Farm Fence is suitable to control livestock, protect crops, and to enclose pastures and compounds.
